

SHREEJI

CONSTRUCTION

Reliability in Every Rivet and Recruitment.

Proprietor | Indravijaysinh N Chudasma
Est. 2007 | Bhavnagar, Gujarat, India

Trusted Manpower

350+ vetted professionals deployed

Structural Engineering

Precision fabrication & erection

Scalable Delivery

30 to 250+ on concurrent sites

Quality & Compliance

Standards-driven industrial execution

Who We Are

A Decade-Proven Industrial Partner

Founded in 2007, Shreeji Construction operates at the intersection of workforce management and engineering execution — delivering integrated solutions to large-scale industrial facilities across India.

18+

Years in Manpower
& Maintenance

5+

Years in Structural
Steel Fabrication

350+

Active Personnel
Deployed

We integrate manpower supply with structural engineering — eliminating coordination gaps, compressing timelines, and ensuring consistent quality across every project phase.

Core Service Portfolio

Three integrated capability pillars — designed to support continuous industrial operations end to end.

Specialized Manpower Supply

Skilled and unskilled workforce for operations, maintenance, and site logistics. Active workforce of 350+ personnel, scalable to 400+ across multiple simultaneous sites.

Steel Fabrication & Structural Engineering

Industrial shed construction, custom platforms, gantries, and structural frameworks — manufactured to specification with full load-bearing compliance.

Maintenance & Asset Integrity

Preventive maintenance, refurbishment, retrofitting, and shutdown execution. Long-term maintenance associations with Nirma Ltd. and Aditya Birla Group.

Specialized Manpower Supply

Structured workforce pipeline segmented by technical capability

Shreeji Construction maintains a vetted, segmented workforce pipeline — ensuring the right personnel are deployed for every project scope across industrial operations, maintenance, and specialist work.

**Active workforce of 350+ personnel, scalable to
400+
across multiple simultaneous sites.**

Workforce Categories

Coded Welders

Certified for high-specification industrial work

Electricians

Precision plant electrical operations & maintenance

Millwrights

Precision mechanical maintenance & alignment

Heavy Equipment Ops.

Site mobilization and large-scale execution

Material Handling

Logistics, stores, and material movement

Unskilled Labour

General site support and operational assistance

Steel Fabrication & Structural Engineering

Precision industrial structures — designed, fabricated, and erected to specification

450+ Metric Tons of structural steel fabrication volume completed to date — high-complexity, deadline-critical projects.

Industrial Shed Construction

End-to-end design and erection of large-span steel structures with full load-bearing capacity and environmental compliance. Projects delivered to strict client specifications.

Structural Steel Fabrication

Custom-built platforms, gantries, mezzanine floors, and industrial support frameworks — manufactured in-house and erected with precision.

Engineering Compliance

High-precision structural work executed under strict safety and project compliance standards, including documentation and sign-off at every stage.

Maintenance & Asset Integrity

Shutdown Execution

Time-critical shutdown execution is a core strength — enabling clients to meet maintenance windows without compromising production schedules.

Refurbishment

Inspection and repair of roofing and structural cladding; upgrading existing structures for evolving compliance and load requirements.

Preventive Maintenance

Long-term planned maintenance associations ensuring continuous asset integrity and reducing unplanned downtime.

What We Cover

- Inspection and repair of roofing and structural cladding systems
- Upgrading existing industrial structures for evolving compliance requirements
- Precision mechanical alignment and equipment replacement during shutdowns
- Air Pre-Heater (APH) replacement — Aditya Birla Group, Veraval

Long-term maintenance associations with Nirma Ltd. and Aditya Birla Group

Major Clients & Deployment Scale

Trusted by leading industrial enterprises across chemicals, infrastructure, and semiconductor sectors

Client / Location	Workforce	Scope
Nirma Ltd. (Bhavnagar)	250+ personnel	Operations, maintenance & shutdowns
Nirma Ltd. (Alindra)	60+ personnel	Ongoing industrial support
Excel Crop Care, Bhavnagar	Variable	Manpower support & maintenance
Agrocel Industries Pvt. Ltd., Avania	30+ personnel	Maintenance & shutdown scaling
L&T for Tata Semiconductor, Dholera	40+ personnel	Structural steel fabrication & erection

Combined workforce deployed across all active sites: 400+ personnel | Multi-industry track record: Chemicals, Infrastructure, Semiconductors

Engineering Excellence — Key Projects

Proven delivery on complex, high-stakes industrial assignments

450+ MT Fabricated

Tata Semiconductor Project (via L&T EPC, Dholera)

450+ metric tons of structural steel fabrication and erection executed under strict compliance, precision standards, and accelerated project timelines for India's landmark semiconductor facility.

Multi-Site Delivery

Industrial Infrastructure (Multi-site)

Pump house roofing structures and weather-resistant industrial installations across multiple campuses. End-to-end scope from design coordination to erection sign-off.

Zero Downtime Overshoot

APH Replacement — Aditya Birla Group, Veraval & Nirma

Air Pre-Heater replacement with precision mechanical alignment executed under controlled shutdown conditions. Completed within client-mandated maintenance windows without production impact.

Financial Stability & Growth

Consistency is the ultimate proof of reliability

Shreeji Construction demonstrates robust financial health and a commitment to transparent practices — making it a low-risk, high-reliability industrial partner.

Why Shreeji Construction

Scalability

Proven ability to deploy and manage manpower from 30 to 250+ personnel across concurrent multi-site operations — with infrastructure to scale rapidly.

Technical Versatility

Capability spanning heavy industrial operations and precision fabrication — coded welding, vessel cleaning, structural erection, and mechanical alignment.

Execution Reliability

Long-term associations with Nirma, Aditya Birla Group, and Tata projects — consistent delivery performance across 18+ years of industrial service.

Safety & Compliance

Operational experience in high-risk environments with rigorous adherence to shutdown protocols, industrial safety standards, and regulatory requirements.

Legal Framework & Certifications

Full transparency and adherence to all national and industry-specific regulations

GST Registered & Compliant

Fully registered under the Goods and Services Tax regime, ensuring transparent invoicing and financial operations.

Reg. No: 24AJBPC6218N1ZC

MSME Certified Enterprise

Recognized as a Micro, Small, and Medium Enterprise — reflecting commitment to national economic development and operational efficiency.

UDYAM-GJ-05-0015335

Safety & Quality Certifications

Adherence to industry-leading safety protocols and quality management systems for all project execution environments.

Industrial & Environmental Standards

Comprehensive Legal Compliance

Strict adherence to all Indian statutory and regulatory requirements for industrial operations and workforce management.

Indian Labour & Contract Law

Large-span Truss Fabrication

Our Vision & Value Proposition

Single-Point Solution

Shreeji Construction integrates manpower supply with structural engineering — eliminating coordination gaps, accelerating project timelines, and ensuring consistent quality across every phase.

Our Vision

To be a trusted industrial partner recognized for reliability, safety compliance, and engineering excellence across India's most demanding industrial sectors.
